

## Human Allyl-CoA Isomerase ELISA Kit

Human Allyl-CoA Isomerase ELISA Kit

CATALOG #  
**AAA205898**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Allyl-CoA Isomerase; Human Allyl-CoA Isomerase ELISA Kit; Allyl-CoA Isomerase elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 12.5 U/L-200 U/L                                                  |
| Sensitivity     | 1 U/L                                                             |

### ADDITIONAL INFORMATION

#### Related Product Information for Allyl-CoA Isomerase elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ALLYL -COA ISOMERASE in the sample, This ALLYL -COA ISOMERASE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ALLYL -COA ISOMERASE concentration. The concentration of ALLYL -COA ISOMERASE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
