

Human 231P-tau ELISA Kit | 231P-tau elisa kit

Human 231P-tau ELISA Kit

CATALOG #
AAA206330

REACTIVITY
Human

PRODUCT SYNONYMS

231P-tau; Human 231P-tau ELISA Kit; 231P-tau elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sensitivity	1 pg/mL
Intra-assay Precision	Intra-assay CV is less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for 231P-tau elisa kit

Intended Uses: This 231P-TAU ELISA kit is intended Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of 231P-TAU in the sample, this 231P-TAU ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus 231P-TAU concentration. The concentration of 231P-TAU in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
