

Mouse Alpha-Secretase ELISA Kit

Mouse Alpha-Secretase ELISA Kit

CATALOG #
AAA206456

REACTIVITY
Mouse

PRODUCT SYNONYMS

Alpha-Secretase; Mouse Alpha-Secretase ELISA Kit; Alpha-Secretase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	0.1 ng/mL
Intra-assay Precision	Intra-assay CV are less than 15%.
Inter-assay Precision	Inter-assay CV are less than 15%.

ADDITIONAL INFORMATION

Related Product Information for Alpha-Secretase elisa kit

Intended Uses: This alpha-Secretase ELISA kit is intended Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of alpha-Secretase in the sample, this alpha-Secretase ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus alpha-Secretase concentration. The concentration of alpha-Secretase in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
