

## Mouse Carnitine Palmitate Transferase 2 ELISA Kit

Mouse Carnitine Palmitate Transferase 2 ELISA Kit

CATALOG #  
**AAA207461**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Carnitine Palmitate Transferase 2; Mouse Carnitine Palmitate Transferase 2 ELISA Kit; Carnitine Palmitate Transferase 2 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Mouse                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 12.5 U/L-200 U/L                                                  |
| Sensitivity     | 1 U/L                                                             |

### ADDITIONAL INFORMATION

#### Related Product Information for Carnitine Palmitate Transferase 2 elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CARNITINE PALMITATE TRANSFERASE 2 in the sample, This CARNITINE PALMITATE TRANSFERASE 2 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CARNITINE PALMITATE TRANSFERASE 2 concentration. The concentration of CARNITINE PALMITATE TRANSFERASE 2 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
