

Mouse Monoacylglycerol Transferase ELISA Kit

Mouse Monoacylglycerol Transferase ELISA Kit

CATALOG #
AAA207462

REACTIVITY
Mouse

PRODUCT SYNONYMS

Monoacylglycerol Transferase; Mouse Monoacylglycerol Transferase ELISA Kit; Monoacylglycerol Transferase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	352
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	125 pg/ml-2000 pg/ml
Sensitivity	10 pg/ml

ADDITIONAL INFORMATION

Related Product Information for Monoacylglycerol Transferase elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of MONOACYLGLYCEROL TRANSFERASE in the sample, This MONOACYLGLYCEROL TRANSFERASE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus MONOACYLGLYCEROL TRANSFERASE concentration. The concentration of MONOACYLGLYCEROL TRANSFERASE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	576106082
NCBI Official Full Name	monoacylglycerol acyl transferase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
