

## Mouse Indole-3-Carboxaldehyde ELISA Kit

Mouse Indole-3-Carboxaldehyde ELISA Kit

CATALOG #  
**AAA207553**

REACTIVITY  
**Mouse**

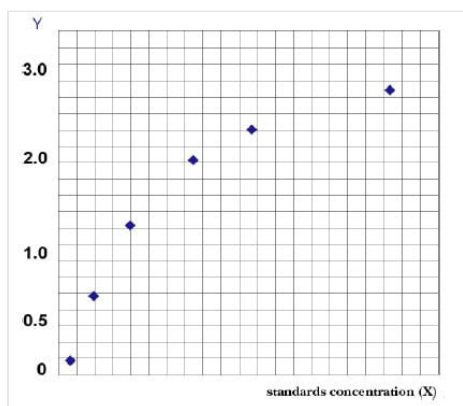

### PRODUCT SYNONYMS

Indole-3-Carboxaldehyde; Mouse Indole-3-Carboxaldehyde ELISA Kit; Indole-3-Carboxaldehyde elisa kit

### PRODUCT SPECIFICATIONS

|             |          |
|-------------|----------|
| Reactivity  | Mouse    |
| Sensitivity | 10 pg/mL |

### IMAGES

### ADDITIONAL INFORMATION

#### Related Product Information for Indole-3-Carboxaldehyde elisa kit

**Intended Uses:** This I3C ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of I3C in the sample, this I3C ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus I3C concentration. The concentration of I3C in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
