

Mouse SSB IgG ELISA Kit

Mouse SSB IgG Antibody ELISA Kit

CATALOG #
AAA208447

REACTIVITY
Mouse

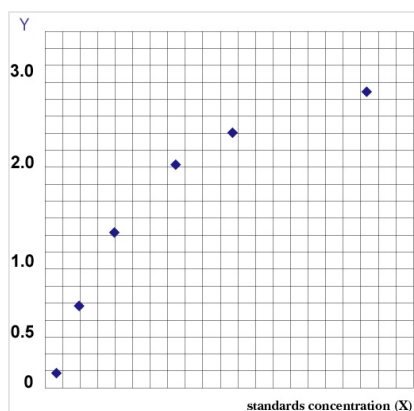

PRODUCT SYNONYMS

SSB IgG; Mouse SSB IgG Antibody ELISA Kit; SSB IgG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	11.25ng/ml-180ng/ml
Sensitivity	1 ng/ml

ADDITIONAL INFORMATION

Related Product Information for SSB IgG elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SSB IGG ANTIBODY in the sample, This SSB IGG ANTIBODY ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SSB IGG ANTIBODY concentration. The concentration of SSB IGG ANTIBODY in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
