

Rat Procalcitonin (PCT) ELISA Kit | PCT elisa kit

Rat Procalcitonin (PCT) ELISA Kit

CATALOG # AAA208933	REACTIVITY Rat
-------------------------------	--------------------------

PRODUCT SYNONYMS

Procalcitonin (PCT); Rat Procalcitonin (PCT) ELISA Kit; PCT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	50 pg/ml-800 pg/ml
Sensitivity	1 pg/ml

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for PCT elisa kit	Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of PCT in the sample, This PCT ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus PCT concentration. The concentration of PCT in the samples is then determined by comparing the O.D. of the samples to the standard curve.
