

## Rat NADSYN ELISA Kit | NADSYN elisa kit

Rat NADSYN ELISA Kit

CATALOG #  
AAA209518

REACTIVITY  
Rat

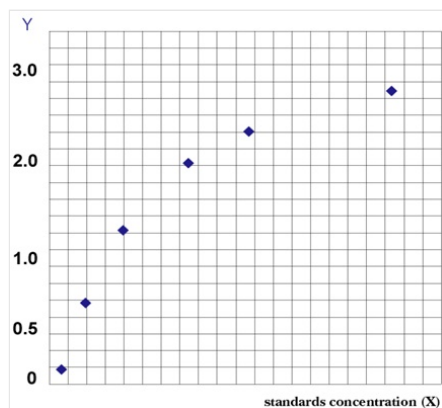

### PRODUCT SYNONYMS

NADSYN; Rat NADSYN ELISA Kit; NADSYN elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Rat                                                               |
| Sequence Length | 787                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 3 U/L-48 U/L                                                      |
| Sensitivity     | 0.1 U/L                                                           |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for NADSYN elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Rat NADSYN in the sample, This Rat NADSYN Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Rat NADSYN concentration. The concentration of Rat NADSYN in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|             |           |
|-------------|-----------|
| NCBI GI #   | 665391212 |
| NCBI GeneID | 32328     |

|                                  |                                                |
|----------------------------------|------------------------------------------------|
