

Rat Succinic Acid ELISA Kit

Rat Succinic Acid ELISA Kit

CATALOG #
AAA209768

REACTIVITY
Rat

PRODUCT SYNONYMS

Succinic Acid; Rat Succinic Acid ELISA Kit; Succinic Acid elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Sensitivity	0.1 ng/mL
Intra-assay Precision	Intra-assay CV is less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for Succinic Acid elisa kit

Intended Uses: This SUCCINIC ACID ELISA kit is intended Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SUCCINIC ACID in the sample, this SUCCINIC ACID ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SUCCINIC ACID concentration. The concentration of SUCCINIC ACID in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
