

## Rat Beta-1,3-Glycosyl Transferases ELISA Kit

Rat beta-1,3-Glycosyl Transferases ELISA Kit

CATALOG #  
**AAA210346**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

Beta-1; 3-Glycosyl Transferases; Rat beta-1; 3-Glycosyl Transferases ELISA Kit; 3-Glycosyl Transferases elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Rat                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 7.5 U/L-120 U/L                                                   |
| Sensitivity     | 0.1 U/L                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for Beta-1,3-Glycosyl Transferases elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of beta-1,3 - GLYCOSYL TRANSFERASES in the sample, This beta-1,3 - GLYCOSYL TRANSFERASE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus beta-1,3 - GLYCOSYL TRANSFERASES concentration. The concentration of beta-1,3 - GLYCOSYL TRANSFERASES in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
