

Glycerol Biochemical

Glycerol

CATALOG #
AAA214185

PRODUCT SYNONYMS

Glycerol; Glycerol biochemical

PRODUCT SPECIFICATIONS

Preparation and Storage

Store between 15-30 degree C.

ADDITIONAL INFORMATION

Related Product Information for Glycerol biochemical

Glycerol is a colorless, viscous, and polyol compound. It is used in molecular biology for techniques such as polyacrylamide gel electrophoresis. Glycerol is used to increase the density of the sample to ensure that it sinks to the bottom of the well.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
