

Porcine Lipopolysaccharide Binding Protein (LBP) RTU ELISA Kit | LBP rtu elisa kit

Porcine Lipopolysaccharide Binding Protein (LBP) ELISA Kit

CATALOG #
AAA216736

REACTIVITY
Porcine

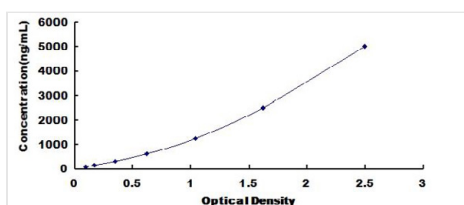

PRODUCT SYNONYMS

Lipopolysaccharide Binding Protein (LBP); Porcine Lipopolysaccharide Binding Protein (LBP) ELISA Kit; LPS-Binding Protein; LBP rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Porcine
Sequence Length	481
Assay Type	Sandwich
Samples	Serum, Plasma or Other Biological Fluids.
Detection Range	78.1-5000ng/mL
Sensitivity	35ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for LBP rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to LBP. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to LBP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain LBP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of LBP in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #

[190360655](#)

NCBI GeneID	397303
NCBI Accession #	NP_001121907.1
NCBI GenBank Nucleotide #	NM_001128435.1
UniProt Accession #	B3F714
Molecular Weight	53,037 Da
NCBI Official Full Name	lipopolysaccharide-binding protein
NCBI Official Symbol	LBP
NCBI Official Synonym Symbols	LPSBP
NCBI Protein Information	lipopolysaccharide-binding protein
UniProt Protein Name	Lipopolysaccharide binding protein
UniProt Gene Name	LBP

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
