

Mouse Mitochondrial Methionyl tRNA Formyltransferase (MTFMT) RTU ELISA Kit | MTFMT rtu elisa kit

Mouse Mitochondrial Methionyl tRNA Formyltransferase (MTFMT) ELISA Kit

CATALOG #
AAA217202

REACTIVITY
Mouse

PRODUCT SYNONYMS

Mitochondrial Methionyl tRNA Formyltransferase (MTFMT); Mouse Mitochondrial Methionyl tRNA Formyltransferase (MTFMT) ELISA Kit; FMT1; MTFMT rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	386
Assay Type	Sandwich
Samples	Tissue Homogenates, Cell Lysates or Other Biological Fluids.
Detection Range	0.156-10ng/mL
Sensitivity	0.055ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for MTFMT rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to MTFMT. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to MTFMT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain MTFMT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of MTFMT in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	227499995
NCBI GeneID	69606
NCBI Accession #	NP_081410.2
NCBI GenBank Nucleotide #	NM_027134.3
UniProt Accession #	Q9D799; Q8VE89; E9QKZ0
Molecular Weight	43,092 Da
NCBI Official Full Name	methionyl-tRNA formyltransferase, mitochondrial
NCBI Official Synonym Full Names	mitochondrial methionyl-tRNA formyltransferase
NCBI Official Symbol	Mtfmt
NCBI Official Synonym Symbols	2310020P08Rik
NCBI Protein Information	methionyl-tRNA formyltransferase, mitochondrial
UniProt Protein Name	Methionyl-tRNA formyltransferase, mitochondrial
UniProt Gene Name	Mtfmt
UniProt Synonym Gene Names	Fmt; MtFMT

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
