

Mouse Oxytocin Receptor (OXTR) ELISA Kit | Oxtr elisa kit

Mouse Oxytocin Receptor (OXTR) ELISA Kit

CATALOG #
AAA219799

REACTIVITY
Mouse

PRODUCT SYNONYMS

Oxytocin Receptor (OXTR); Mouse Oxytocin Receptor (OXTR) ELISA Kit; OT-R; Oxtr elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of OXTR. No significant cross-reactivity or interference between OXTR and analogues was observed.
Assay Type	Quantitative Sandwich
Samples	Mouse tissue homogenates, cell lysates or other biological fluids
Detection Range	0.156-10ng/mL
Sensitivity	< 0.048ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, middle and high level OXTR were tested 20 times on one plate, respectively. Intra-Assay: CV<10%
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, middle and high level OXTR were tested on 3 different plates, 8 replicates in each plate. CV(%) = SD/meanX100. Inter-Assay: CV<12%
Preparation and Storage	Shelf Life: 12 months

ADDITIONAL INFORMATION

Related Product Information for Oxtr elisa kit

Principle of the Assay: The microtiter plate provided in this kit has been pre-coated with an antibody specific to OXTR. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to OXTR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain OXTR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of OXTR in the samples is then determined by comparing the O.D. of the samples to the standard curve.

Intended Uses: The kit is a sandwich enzyme immunoassay for the in vitro quantitative measurement of OXTR in mouse tissue homogenates, cell lysates or other biological fluids.

NCBI AND UNIPROT INFORMATION

NCBI GI #	124487243
NCBI GeneID	18430
NCBI Accession #	NP_001074616.1
NCBI GenBank Nucleotide #	NM_001081147.1
UniProt Accession #	P97926; F8VQ78
Molecular Weight	42,805 Da
NCBI Official Full Name	oxytocin receptor
NCBI Official Synonym Full Names	oxytocin receptor
NCBI Official Symbol	Oxtr
NCBI Official Synonym Symbols	OTR
NCBI Protein Information	oxytocin receptor
UniProt Protein Name	Oxytocin receptor
UniProt Gene Name	Oxtr
UniProt Synonym Gene Names	OT-R
UniProt Entry Name	OXYR_MOUSE

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
