

## Mouse Gliadin Monoclonal Antibody

Gliadin Antibody

CATALOG #  
AAA225034HOST  
Mouse

### PRODUCT SYNONYMS

Gliadin; Monoclonal Antibody; Gliadin Antibody; Mouse anti-Gliadin Antibody; Monoclonal antibody to gliadin; anti-Gliadin antibody

### PRODUCT SPECIFICATIONS

|                         |                                                                          |
|-------------------------|--------------------------------------------------------------------------|
| Host                    | Mouse                                                                    |
| Clonality               | Monoclonal                                                               |
| Isotype                 | IgG1                                                                     |
| Clone Number            | M86940                                                                   |
| Form/Format             | Liquid in 150mM NaCl, pH 7.5, with 10mM Tris, and 0.05% NaN <sub>3</sub> |
| Concentration           | 1.2mg/ml (varies by lot)                                                 |
| Sequence Length         | 296                                                                      |
| Immunogen               | Purified wheat gliadin                                                   |
| Cross Reactivity        | High affinity, reactive against beta, gamma and omega gliadins           |
| Preparation and Storage | 4°C short term, -20°C long term.                                         |

### NCBI AND UNIPROT INFORMATION

|                         |         |
|-------------------------|---------|
| NCBI GI #               | 170740  |
| NCBI Official Full Name | gliadin |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
