

## Rabbit GPR137B Polyclonal Antibody | anti-GPR137B antibody

GPR137B Antibody

|                               |                       |                                                           |
|-------------------------------|-----------------------|-----------------------------------------------------------|
| CATALOG #<br><b>AAA225403</b> | HOST<br><b>Rabbit</b> | APPLICATIONS<br><b>Western Blot, Immunohistochemistry</b> |
|-------------------------------|-----------------------|-----------------------------------------------------------|

### PRODUCT SYNONYMS

GPR137B; Polyclonal Antibody; GPR137B Antibody; Affinity Purified Rabbit Polyclonal GPR137B Antibody; Polyclonal GPR137B antibody; Anti-GPR137B antibody; integral membrane protein GPR137B antibody; GPRB 137; transmembrane 7 superfamily member 1 (upregulated in kidney) antibody; GPRB 137 antibody; G protein-coupled receptor 137B antibody; TM7SF1 antibody; transmembrane 7 superfamily member 1 protein antibody; GPRB-137; GPRB-137 antibody; GPR137B antibody; anti-GPR137B antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                              |
|---------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                              | Rabbit                                                                                                                                       |
| Clonality                                         | Polyclonal                                                                                                                                   |
| Isotype                                           | IgG                                                                                                                                          |
| Purity/Purification                               | Antigen-Affinity Chromatography                                                                                                              |
| Form/Format                                       | Supplied as a concentrated solution containing 0.1M Tris, 0.1M Glycine, 10% Glycerol (pH 7.0). 0.01% Thimerosal was added as a preservative. |
| Concentration                                     | 1 mg/ml (varies by lot)                                                                                                                      |
| Sequence Length                                   | 385                                                                                                                                          |
| Applicable Applications for anti-GPR137B antibody | WB (Western Blot), IHC (Immunohistochemistry)                                                                                                |
| Cross-Reactivity                                  | Human                                                                                                                                        |
| Preparation and Storage                           | Store at 4 degree C for short term storage. Aliquot and store at -20 degree C for long term storage. Avoid repeated freeze/thaw cycles.      |

### IMAGES

**WB (Western Blot)**

Western blot analysis of 30 ug of whole cell lysate (A: Hep G2) using a 10% SDS PAGE gel and GPR137B antibody at a dilution of 1:1000

**IHC (Immunohistochemistry)**

Immunohistochemical staining of paraffin-embedded BCC2 xenograft using GPR137B antibody at a dilution of 1:100

### NCBI AND UNIPROT INFORMATION

|                  |                            |
|------------------|----------------------------|
| NCBI GI #        | <a href="#">1494136586</a> |
| Molecular Weight | 46 kDa                     |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
