

Rabbit GRB10 Polyclonal Antibody | anti-GRB10 antibody

GRB10 Antibody

CATALOG # AAA225771	HOST Rabbit	APPLICATIONS Immunohistochemistry, Western Blot
-------------------------------	-----------------------	---

PRODUCT SYNONYMS

GRB10; Polyclonal Antibody; GRB10 Antibody; Affinity Purified Rabbit Polyclonal GRB10 Antibody; Polyclonal GRB10 antibody; Anti-GRB10 antibody; GRB-10 antibody; Growth factor receptor bound protein 10 antibody; GRB 10; GRB 10 antibody; GRB-10; insulin receptor-binding protein Grb-IR antibody; Grb-IR antibody; Growth factor receptor bound 10 antibody; anti-GRB10 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	Affinity Chromatography
Form/Format	Lyophilized Form
Sequence Length	116
Applicable Applications for anti-GRB10 antibody	IHC (Immunohistochemistry), WB (Western Blot)
Immunogen	GRB10 antibody was raised in Rabbit using a synthetic peptide corresponding to a sequence in the middle region of human GRB10, identical to the related rat and Rabbit sequences, as the immunogen
Preparation and Storage	Store at 4 degree C for short term storage. For long term storage aliquot and store at -20 degree C. Avoid repeated freeze/thaw cycles.

IMAGES

WB (Western Blot)

Western Blot using Lane 1: SMMC Cell Lysate; Lane 2: Hela Cell Lysate

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded section of Rat Kidney Tissue

ADDITIONAL INFORMATION

Related Product Information for anti-GRB10 antibody	GRB10, Growth factor receptor-bound protein 10, also known as insulin receptor-binding protein Grb-IR is a protein that in humans is encoded by the GRB10 gene. The product of this gene belongs to a small family of adapter proteins that are known to interact with a number of receptor tyrosine kinases and signaling molecules. This gene encodes a growth factor receptor-binding protein that interacts with insulin receptors and insulin-like growth-factor receptors (e.g., IGF1R and IGF2R). Overexpression of some isoforms of the encoded protein inhibits tyrosine kinase activity and results in growth suppression. This gene is imprinted in a highly isoform- and tissue-specific manner. Alternatively spliced transcript variants encoding different isoforms have been identified.
Product Categories/Family for anti-GRB10 antibody	Signal Transduction

NCBI AND UNIPROT INFORMATION

NCBI GI #	958723279
NCBI Official Full Name	GRB10, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
