

## 5,6-dichloroandrostane-3,17-diol Biochemical

5,6-dichloroandrostane-3,17-diol

CATALOG #  
**AAA226917**

### PRODUCT SYNONYMS

5; 6-dichloroandrostane-3; 17-diol; 17-diol biochemical

### PRODUCT SPECIFICATIONS

|                         |                                                                          |
|-------------------------|--------------------------------------------------------------------------|
| Purity/Purification     | 98%                                                                      |
| Solubility              | <1mg/ml refers to the product slightly soluble or insoluble              |
| Preparation and Storage | Powder: -20 degree C for 3 years<br>In solvent: -80 degree C for 2 years |

### IMAGES

Structure  
2-Fluoro-4-iodo benzonitrile, CAS 137553-42-5

Structure  
2-Fluoro-4-iodo benzonitrile, CAS 137553-42-5

### ADDITIONAL INFORMATION

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
