

## Sulfo-NHS-LC-Biotin sodium Biochemical

Sulfo-NHS-LC-Biotin sodium

CATALOG #  
**AAA227985**

### PRODUCT SYNONYMS

Sulfo-NHS-LC-Biotin sodium; Sulfo-NHS-LC-Biotin sodium biochemical

### PRODUCT SPECIFICATIONS

|                         |                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------|
| Purity/Purification     | 98%                                                                                                          |
| Formula                 | C <sub>20</sub> H <sub>29</sub> N <sub>4</sub> NaO <sub>9</sub> S <sub>2</sub>                               |
| CAS                     | 191671-46-2                                                                                                  |
| Solubility              | DMSO: 75.6mg/mL (135.8mM),<br>Need ultrasonic<br><1mg/ml refers to the product slightly soluble or insoluble |
| Preparation and Storage | Powder: -20 degree C for 3 yearsIn solvent: -80 degree C for 2 years                                         |

### ADDITIONAL INFORMATION

|                                                                        |                                                                                              |
|------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|
| Related Product Information for Sulfo-NHS-LC-Biotin sodium biochemical | Sulfo-NHS-LC-Biotin sodium is an amine-reactive biotinylation reagent for antibody labeling. |
| Product Categories/Family for Sulfo-NHS-LC-Biotin sodium biochemical   | Others                                                                                       |

### NCBI AND UNIPROT INFORMATION

|                  |        |
|------------------|--------|
| Molecular Weight | 718.61 |
|------------------|--------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
