

Rabbit IX Polyclonal Antibody | anti-IX antibody

IX Antibody, HRP conjugated

CATALOG # AAA233654	HOST Rabbit	REACTIVITY Enterobacteria Phage M13	APPLICATIONS ELISA
-------------------------------	-----------------------	---	------------------------------

PRODUCT SYNONYMS

IX; Polyclonal Antibody; IX Antibody; HRP conjugated; Tail virion protein G9P; Coat protein C; polypeptide II; G9P; anti-IX antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Enterobacteria Phage M13
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	>95%, Protein G purified
Form/Format	Liquid
Sequence Length	32
Applicable Applications for anti-IX antibody	ELISA
Immunogen	Recombinant Enterobacteria phage M13 Tail virion protein G9P protein (1-32aa)
Conjugation	HRP
Storage Buffer	Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, pH 7.4
Immunogen Species	Enterobacteria Phage M13
Research Area	Others
Target Names	IX
Preparation and Storage	Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.

ADDITIONAL INFORMATION

Related Product Information for anti-IX antibody	May initiate with G7P the virion concomitant assembly-budding process, by interacting with the packaging signal of the viral genome. The assembly-budding takes place at the host inner membrane. In turn, G7P and G9P are present at the end of the filamentous virion that emerges first from the bacterial host.

NCBI AND UNIPROT INFORMATION

NCBI GI #	17426222
NCBI GeneID	927332
NCBI Accession #	NP_510889.1
NCBI GenBank Nucleotide #	NC_003287.2

UniProt Accession #	P69538; P03677
NCBI Official Full Name	structural protein
NCBI Official Symbol	IX
NCBI Protein Information	minor coat protein
UniProt Protein Name	Tail virion protein G9P
UniProt Gene Name	IX

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
