

## Rabbit anti-Human ESYT2 Polyclonal Antibody | anti-ESYT2 antibody

ESYT2 Antibody, FITC conjugated

|                               |                       |                            |
|-------------------------------|-----------------------|----------------------------|
| CATALOG #<br><b>AAA234396</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human</b> |
|-------------------------------|-----------------------|----------------------------|

### PRODUCT SYNONYMS

ESYT2; Polyclonal Antibody; ESYT2 Antibody; FITC conjugated; Extended synaptotagmin-2; E-Syt2; Chr2Syt; FAM62B; KIAA1228; anti-ESYT2 antibody

### PRODUCT SPECIFICATIONS

|                         |                                                                                            |
|-------------------------|--------------------------------------------------------------------------------------------|
| Host                    | Rabbit                                                                                     |
| Reactivity              | Human                                                                                      |
| Clonality               | Polyclonal                                                                                 |
| Isotype                 | IgG                                                                                        |
| Purity/Purification     | >95%, Protein G purified                                                                   |
| Form/Format             | Liquid<br>Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, pH 7.4 |
| Sequence Length         | 893                                                                                        |
| Immunogen               | Recombinant Human Extended synaptotagmin-2 protein (567-736AA)                             |
| Conjugation             | FITC                                                                                       |
| Immunogen Species       | Homo sapiens (Human)                                                                       |
| Research Area           | Cell Biology                                                                               |
| Preparation and Storage | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                              |

### ADDITIONAL INFORMATION

|                                                   |              |
