

## Rabbit anti-Bovine PAG2 Polyclonal Antibody | anti-PAG2 antibody

PAG2 Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS |
|-----------|--------|------------|--------------|
| AAA234640 | Rabbit | Bovine     | ELISA        |

### PRODUCT SYNONYMS

PAG2; Polyclonal Antibody; PAG2 Antibody; Pregnancy-associated glycoprotein 2; PAG 2; EC 3.4.23.-; anti-PAG2 antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                  |
|------------------------------------------------|----------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                           |
| Reactivity                                     | Bovine                                                                           |
| Clonality                                      | Polyclonal                                                                       |
| Isotype                                        | IgG                                                                              |
| Purity/Purification                            | >95%, Protein G purified                                                         |
| Form/Format                                    | Liquid                                                                           |
| Sequence Length                                | 376                                                                              |
| Applicable Applications for anti-PAG2 antibody | ELISA                                                                            |
| Immunogen                                      | Recombinant Bovine Pregnancy-associated glycoprotein 2 protein (22-376AA)        |
| Immunogen Species                              | Bos taurus (Bovine)                                                              |
| Research Areas                                 | Other                                                                            |
| Conjugation                                    | Non-conjugated                                                                   |
| Buffer                                         | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, pH 7.4 |
| Preparation and Storage                        | Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.      |

### ADDITIONAL INFORMATION

|                                                    |                                                                                                      |
|----------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-PAG2 antibody | PAG2 or a processed derivative of this molecule might represent a factor that binds the LH receptor. |
