

## Rabbit anti-Human FRYL Polyclonal Antibody | anti-FRYL antibody

FRYL Antibody

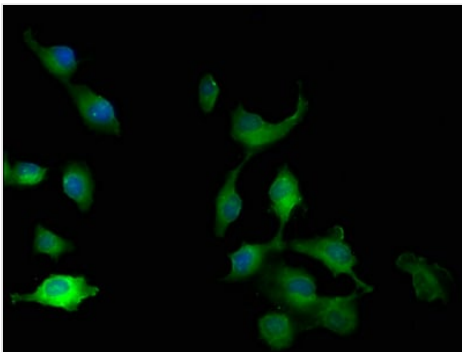

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                                    |
|-----------|--------|------------|-------------------------------------------------|
| AAA235304 | Rabbit | Human      | Immunofluorescence, Immunohistochemistry, ELISA |

### PRODUCT SYNONYMS

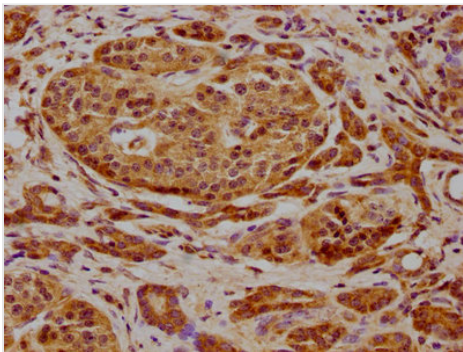

FRYL; Polyclonal Antibody; FRYL Antibody; Protein furry homolog-like; ALL1-fused gene from chromosome 4p12 protein; AF4P12 KIAA0826; anti-FRYL antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                             |
|------------------------------------------------|-----------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                      |
| Reactivity                                     | Human                                                                       |
| Clonality                                      | Polyclonal                                                                  |
| Isotype                                        | IgG                                                                         |
| Purity/Purification                            | >95%<br>Protein G Purified                                                  |
| Form/Format                                    | Liquid                                                                      |
| Sequence Length                                | 3013                                                                        |
| Applicable Applications for anti-FRYL antibody | IF (Immunofluorescence), IHC (Immunohistochemistry), ELISA                  |
| Immunogen Species                              | Human                                                                       |
| Immunogen                                      | Recombinant Human Protein furry homolog-like protein (42-739AA)             |
| Conjugate                                      | Non-Conjugated                                                              |
| Preservative                                   | 0.03% Proclin 300                                                           |
| Constituents                                   | 50% Glycerol, 0.01M PBS, pH 7.4                                             |
| Preparation and Storage                        | Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze. |

**IF (Immunofluorescence)**  
Immunofluorescence staining of U251 cells with CSB-PA009007LA01HU at 1:100, counter-stained with DAPI. The cells were fixed in 4% formaldehyde, permeabilized using 0.2% Triton X-100 and blocked in 10% normal Goat Serum. The cells were then incubated with the antibody overnight at 4 degree C. The secondary antibody was Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).

**IHC (Immunohistochemistry)**  
IHC image of CSB-PA009007LA01HU diluted at 1:600 and staining in paraffin-embedded human pancreatic cancer performed on a Leica Bond™ system. After dewaxing and hydration, antigen retrieval was mediated by high pressure in a citrate buffer (pH 6.0). Section was blocked with 10% normal goat serum 30min at RT. Then primary antibody (1% BSA) was incubated at 4 degree C overnight. The primary is detected by a biotinylated secondary antibody and visualized using an HRP conjugated SP system.
