

Human Dengue Virus NS1 Antigen ELISA Kit

Human Dengue Virus NS1 Antigen ELISA Kit

CATALOG #
AAA23657

REACTIVITY
Human

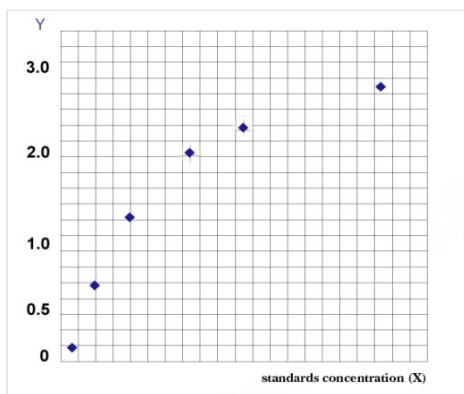

PRODUCT SYNONYMS

Dengue Virus NS1 Antigen; Human Dengue Virus NS1 Antigen ELISA Kit; Dengue Virus NS1 Antigen elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sensitivity	0.1 ng/L
Intra-assay Precision	Intra-assay CV are less than 15%.
Inter-assay Precision	Inter-assay CV are less than 15%.

ADDITIONAL INFORMATION

Related Product Information for Dengue Virus NS1 Antigen elisa kit

Intended Uses: This DVNS1 ELISA kit is intended Laboratory for Research use only and is not for use in diagnostic or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of DVNS1 in the sample, this DVNS1 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus DVNS1 concentration. The concentration of DVNS1 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
