

General HA Tag ELISA Kit

General HA Tag ELISA Kit

CATALOG #
AAA23661

REACTIVITY
General

PRODUCT SYNONYMS

HA Tag; General HA Tag ELISA Kit; HA Tag elisa kit

PRODUCT SPECIFICATIONS

Reactivity	General
Sequence Length	576
Assay Type	Competitive
Detection Range	0.05-90 ng/mL
Sensitivity	1.0 ng/mL
Intra-assay Precision	Intra-assay CV are less than 15%.
Inter-assay Precision	Inter-assay CV are less than 15%.

ADDITIONAL INFORMATION

Related Product Information for HA Tag elisa kit

Intended Uses: This HA TAG ELISA kit is intended Laboratory for Research use only and is not for use in diagnostic or therapeutic procedures. This kit uses an indirect competitive ELISA method to pre-coat the conjugate antigen on the microbar of the enzyme plate, and the residual HA TAG in the sample and the conjugate antigen pre-coated on the microbar compete with the antibody of HA TAG. After adding the secondary antibody of the enzyme, the TMB substrate is used for color development. The absorbance value of the sample is negatively correlated with the content of HA TAG residue. Multiply by the corresponding dilution to obtain the sample's residual amount of HA TAG.

NCBI AND UNIPROT INFORMATION

NCBI GI #

9518852

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
