

## Human Kisspeptin 54 ELISA Kit

Human Kisspeptin 54 ELISA Kit

CATALOG #  
**AAA23712**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Kisspeptin 54; Human Kisspeptin 54 ELISA Kit; Kisspeptin 54 elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                  |
|-----------------------|----------------------------------|
| Reactivity            | Human                            |
| Sensitivity           | 10 pg/mL                         |
| Intra-assay Precision | Intra-assay CV is less than 15%. |
| Inter-assay Precision | Inter-assay CV is less than 15%. |

### ADDITIONAL INFORMATION

#### Related Product Information for Kisspeptin 54 elisa kit

**Intended Uses:** This KISSPEPTIN 54 ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of KISSPEPTIN 54 in the sample, this KISSPEPTIN 54 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus KISSPEPTIN 54 concentration. The concentration of KISSPEPTIN 54 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
