

Mouse Activity-dependent neuroprotector homeobox protein (ADNP) ELISA Kit | ADNP elisa kit

Mouse Activity-dependent neuroprotector homeobox protein (ADNP) ELISA Kit

CATALOG # AAA245884	REACTIVITY Mouse
-------------------------------	----------------------------

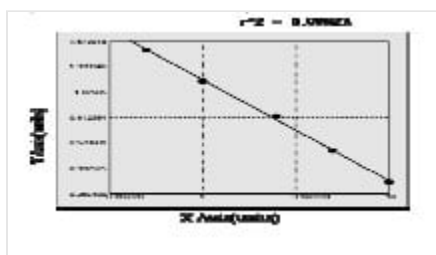

PRODUCT SYNONYMS

Activity-dependent neuroprotector homeobox protein (ADNP); Mouse Activity-dependent neuroprotector homeobox protein (ADNP) ELISA Kit; ADNP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Quantitative Competitive
Sensitivity	0.1 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for ADNP elisa kit	Intended Uses: This ADNP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse ADNP. This ELISA kit for research use only! Principle of the Assay: ADNP ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-ADNP antibody and an ADNP-HRP conjugate. The assay sample and buffer are incubated together with ADNP-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ADNP concentration since ADNP from samples and ADNP-HRP conjugate compete for the anti-ADNP antibody binding site. Since the number of sites is limited, as more sites are occupied by ADNP from the sample, fewer sites are left to bind ADNP-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ADNP concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	31563503
NCBI GeneID	23394
NCBI Accession #	NP_852107.1
NCBI GenBank Nucleotide #	NM_181442.2
Molecular Weight	123,563 Da
NCBI Official Full Name	activity-dependent neuroprotector homeobox protein
NCBI Official Synonym Full Names	activity-dependent neuroprotector homeobox
NCBI Official Symbol	ADNP
NCBI Official Synonym Symbols	ADNP1; MRD28
NCBI Protein Information	activity-dependent neuroprotector homeobox protein; ADNP homeobox 1; activity-dependent neuroprotective protein
UniProt Protein Name	Activity-dependent neuroprotector homeobox protein
UniProt Gene Name	ADNP
UniProt Synonym Gene Names	ADNP1; KIAA0784
UniProt Entry Name	ADNP_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
