

## Wnt8b recombinant protein

Recombinant Mouse Wnt8b

|                               |                       |
|-------------------------------|-----------------------|
| CATALOG #<br><b>AAA249527</b> | HOST<br><b>E Coli</b> |
|-------------------------------|-----------------------|

### PRODUCT SYNONYMS

Wnt8b; Recombinant Mouse Wnt8b; Protein Wnt-8b; Wingless related MMTV integration site 8b; Wingless type MMTV integration site family; member 8B; Wnt 8b; Wnt8 b; WNT8B\_HUMAN; Wnt8b recombinant protein

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                    |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | E Coli                                                                                                                                             |
| Purity/Purification     | Greater than 95% by SDS-PAGE gel analyses                                                                                                          |
| Form/Format             | Lyophilized from a 0.2um filtered solution in 10mM Hepes, 500 mM NaCl with 5% trehalose, pH 7.4                                                    |
| Sequence Positions      | 22-350                                                                                                                                             |
| Species                 | Mouse                                                                                                                                              |
| Tag                     | N-terminal His tag                                                                                                                                 |
| Reconstitution          | Centrifuge the vial at 10,000 rpm for 1 minute, reconstitute at 200 ug/mL in sterile distilled water by gentle pipetting 2-3 times, do not vortex. |
| Preparation and Storage | Store at -20 degree C for 12 months as lyophilized; 2-8 degree C for 1 month under sterile conditions after reconstitution                         |

### NCBI AND UNIPROT INFORMATION

|                     |          |
|---------------------|----------|
| NCBI GI #           | 9979381  |
| NCBI GeneID         | 22423    |
| UniProt Accession # | Q9WUD6   |
| Molecular Weight    | 36.1 kDa |

|                                  |                                                       |
|----------------------------------|-------------------------------------------------------|
| NCBI Official Full Name          | Protein Wnt-8b                                        |
| NCBI Official Synonym Full Names | wingless-type MMTV integration site family, member 8B |
| NCBI Official Symbol             | Wnt8b                                                 |
| NCBI Protein Information         | protein Wnt-8b                                        |
| UniProt Protein Name             | Protein Wnt-8b                                        |
| UniProt Gene Name                | <b>Wnt8b</b>                                          |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
