

Rabbit anti-Human Von Willebrand Factor/vWF Polyclonal Antibody | anti-vWF antibody

Anti-Von Willebrand Factor/vWF Antibody, Rabbit Polyclonal

CATALOG # AAA255269	HOST Rabbit	REACTIVITY Human	APPLICATIONS Immunohistochemistry, ELISA
-------------------------------	-----------------------	----------------------------	--

PRODUCT SYNONYMS

Von Willebrand Factor/vWF; Polyclonal Antibody; Anti-Von Willebrand Factor/vWF Antibody; Rabbit Polyclonal; VWF/Von Willebrand Factor Antibody; Rabbit PAb; Antigen Affinity Purified; von Willebrand factor; Anti-F8VWF Antibody; Anti-Von Willebrand Factor Antibody; Anti-VWD Antibody; anti-vWF antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Polyclonal
Isotype	Rabbit IgG
Specificity	Human Von Willebrand Factor/vWF
Purity/Purification	Protein A & Antigen Affinity
Form/Format	Liquid; PBS, pH7.0 with 0.03% Proclin300
Applicable Applications for anti-vWF antibody	IHC (Immunohistochemistry), ELISA
Immunogen	Recombinant Human VWF/Von Willebrand Factor Protein
Conjugation	Unconjugated
Preparation	Produced in rabbits immunized with purified, recombinant Human VWF/Von Willebrand Factor (rh VWF/Von Willebrand Factor). VWF/Von Willebrand Factor specific IgG was purified by Human VWF/Von Willebrand Factor affinity chromatography.
Preparation and Storage	This antibody can be stored at 2-8 degree C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20 degree C to -80 degree C. Avoid repeated freeze-thaw cycles.

IMAGES

IHC (Immunohistochemistry)

Immunochemical staining of human VWF in human colon with rabbit polyclonal antibody at 1:1000 dilution, formalin-fixed paraffin embedded sections.

IHC (Immunohistochemistry)

Immunochemical staining of human VWF in human tonsil with rabbit polyclonal antibody at 1:1000 dilution, formalin-fixed paraffin embedded sections.

ADDITIONAL INFORMATION

Related Product Information for anti-vWF antibody	Von Willebrand Factor (VWF) is a multimeric glycoprotein involved in hemostasis in blood, binds receptors on the surface of platelets and in connective tissue, thereby mediating the adhesion of platelets to sites of vascular injury. From studies it appears that VWF protein uncoils under these circumstances, decelerating passing platelets. VWF protein is deficient or defective in von Willebrand disease (VWD) and is involved in a large number of other diseases, including thrombosis, thrombotic thrombocytopenic purpura, Stroke, Heyde's syndrome, possibly hemolytic-uremic syndrome and so on.

NCBI AND UNIPROT INFORMATION

NCBI GI #	340356
NCBI GeneID	7450
UniProt Accession #	P04275; Q8TCE8; Q99806
Molecular Weight	38,745 Da
NCBI Official Full Name	von Willebrand factor
NCBI Official Synonym Full Names	von Willebrand factor
NCBI Official Symbol	VWF
NCBI Official Synonym Symbols	VWD; F8VWF
NCBI Protein Information	von Willebrand factor
UniProt Protein Name	von Willebrand factor
UniProt Gene Name	VWF
UniProt Synonym Gene Names	F8VWF; vWF
UniProt Entry Name	VWF_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
