

## General Proanthocyanidin Assay Kit

Proanthocyanidin Microplate Assay Kit

|                               |                              |                                         |
|-------------------------------|------------------------------|-----------------------------------------|
| CATALOG #<br><b>AAA264795</b> | REACTIVITY<br><b>General</b> | APPLICATIONS<br><b>Functional Assay</b> |
|-------------------------------|------------------------------|-----------------------------------------|

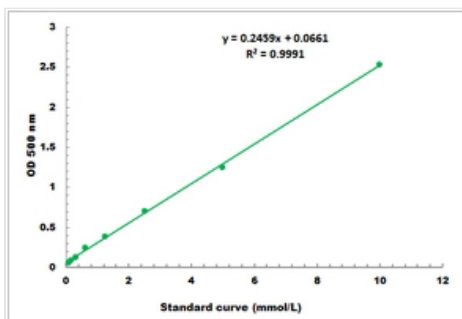

### PRODUCT SYNONYMS

Proanthocyanidin; Proanthocyanidin Microplate Assay Kit; Proanthocyanidin assay kit

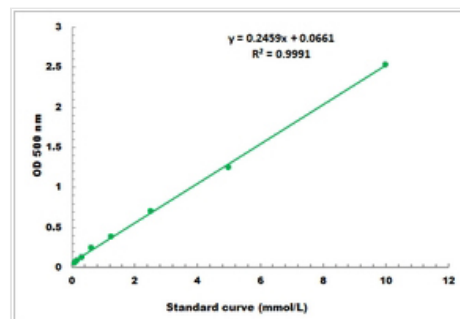

### PRODUCT SPECIFICATIONS

|                                                        |                                               |
|--------------------------------------------------------|-----------------------------------------------|
| Reactivity                                             | General                                       |
| Sample Types                                           | Tissue extracts, Other biological fluids      |
| Detection Method                                       | Colorimetric                                  |
| Detection Range                                        | 0.1 mmol/L - 10 mmol/L                        |
| CAS Number                                             | 4852-22-6                                     |
| Applicable Applications for Proanthocyanidin assay kit | FA (Functional Assay)                         |
| Preparation and Storage                                | Shipped and store at 4 degree C for 6 months. |
