

## Rabbit anti-Human Hevin Polyclonal Antibody | anti-SPARCL1 antibody

Anti-Hevin Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                       |
|-----------|--------|------------|------------------------------------|
| AAA265248 | Rabbit | Human      | Immunohistochemistry, Western Blot |

### PRODUCT SYNONYMS

Hevin; Polyclonal Antibody; Anti-Hevin Antibody; anti-SPARCL1 antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                       |
|---------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Host                                              | Rabbit                                                                                                                                |
| Reactivity                                        | Human                                                                                                                                 |
| Clonality                                         | Polyclonal                                                                                                                            |
| Specificity                                       | Recognizes endogenous levels of Hevin protein.                                                                                        |
| Purity/Purification                               | The antibody was purified by immunogen affinity chromatography.                                                                       |
| Form/Format                                       | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH7.3, 30% glycerol, and 0.01% sodium azide.                              |
| Applicable Applications for anti-SPARCL1 antibody | IHC (Immunohistochemistry), WB (Western Blot)                                                                                         |
| Immunogen                                         | KLH-conjugated synthetic peptide encompassing a sequence within the Central region of human Hevin. The exact sequence is proprietary. |
| Preparation and Storage                           | Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C for one year. Avoid freeze/thaw cycles.                        |

### IMAGES

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of Hevin staining in human brain formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

#### WB (Western Blot)

Western blot analysis of Hevin expression in NCIH460 (A) whole cell lysates. (Predicted band size: 75 kDa; Observed band size: 90 kDa)
