

## IgG secondary antibody

Goat Anti Human IgG-HRP

CATALOG #  
**AAA266712**

HOST  
**Goat**

### PRODUCT SYNONYMS

IgG; Goat Anti Human IgG-HRP; IgG secondary antibody

### PRODUCT SPECIFICATIONS

|                         |                                                                                               |
|-------------------------|-----------------------------------------------------------------------------------------------|
| Host                    | Goat                                                                                          |
| Specificity             | Reacts with heavy chains on human IgG and with the light chains on all human Immunoglobulins. |
| Purity/Purification     | >90% pure (SDS-PAGE)                                                                          |
| Form/Format             | Affinity purified, Liquid; 10mM PBS, 30% Glycerine, pH 7.4                                    |
| Concentration           | 1.25mg/ml (varies by lot)                                                                     |
| Sequence Length         | 476                                                                                           |
| Immunogen               | Purified human IgG                                                                            |
| Preparation and Storage | Store at -20°C for 3 years. Avoid multiple freeze/thaw cycles.                                |

### ADDITIONAL INFORMATION

|                                                        |                                                                                 |
