

Mouse Bid (BH3 Interacting Domain Death Agonist) ELISA Kit | Bid elisa kit

Mouse Bid (BH3 Interacting Domain Death Agonist) ELISA Kit

CATALOG #
AAA269863

REACTIVITY
Mouse

PRODUCT SYNONYMS

Bid (BH3 Interacting Domain Death Agonist); Mouse Bid (BH3 Interacting Domain Death Agonist) ELISA Kit; p22 BID; Bid elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Assay Type	Sandwich
Detection Range	0.32-20 ng/mL
Sensitivity	0.127 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for Bid elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to BH3 Interacting Domain Death Agonist(Bid). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to BH3 Interacting Domain Death Agonist(Bid). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain BH3 Interacting Domain Death Agonist(Bid), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of BH3 Interacting Domain Death Agonist(Bid) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for Bid elisa kit
