

## Rabbit anti-Dog Cationic trypsin Polyclonal Antibody

Cationic trypsin Antibody

|                              |                       |                          |                              |
|------------------------------|-----------------------|--------------------------|------------------------------|
| CATALOG #<br><b>AAA26987</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Dog</b> | APPLICATIONS<br><b>ELISA</b> |
|------------------------------|-----------------------|--------------------------|------------------------------|

### PRODUCT SYNONYMS

Cationic trypsin; Polyclonal Antibody; Cationic trypsin Antibody; Cationic trypsin (EC 3.4.21.4); anti-Cationic trypsin antibody

### PRODUCT SPECIFICATIONS

|                                                            |                                                                                            |
|------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Host                                                       | Rabbit                                                                                     |
| Reactivity                                                 | Dog                                                                                        |
| Clonality                                                  | Polyclonal                                                                                 |
| Isotype                                                    | IgG                                                                                        |
| Purity/Purification                                        | >95%, Protein G purified                                                                   |
| Form/Format                                                | Liquid<br>Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, pH 7.4 |
| Sequence Length                                            | 246                                                                                        |
| Applicable Applications for anti-Cationic trypsin antibody | ELISA                                                                                      |
| Immunogen                                                  | Recombinant Dog Cationic trypsin protein (24-246AA)                                        |
| Immunogen Species                                          | Canis lupus familiaris (Dog) (Canis familiaris)                                            |
| Research Area                                              | Others                                                                                     |
| Conjugate                                                  | Non-conjugated                                                                             |
| Preparation and Storage                                    | Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.                |

### NCBI AND UNIPROT INFORMATION

|                         |                        |
|-------------------------|------------------------|
| NCBI GI #               | <a href="#">136406</a> |
| UniProt Accession #     | <a href="#">P06871</a> |
| NCBI Official Full Name | Cationic trypsin       |
| UniProt Protein Name    | Cationic trypsin       |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
