

Human OXA (Orexin A) ELISA Kit | OXA elisa kit

Human OXA (Orexin A) ELISA Kit

CATALOG #
AAA270141

REACTIVITY
Human

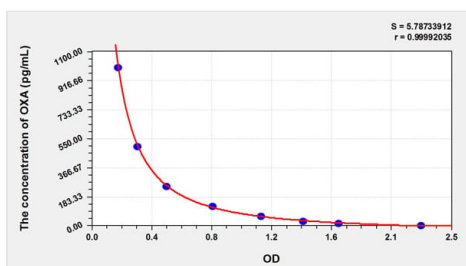

PRODUCT SYNONYMS

OXA (Orexin A); Human OXA (Orexin A) ELISA Kit; Hypocretin-1; OXA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	serum, plasma and other biological fluids
Assay Type	Competitive
Detection Range	15.63-1000 pg/mL
Sensitivity	4.93 pg/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for OXA elisa kit

Principle of the assay: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Orexin A(OXA) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Orexin A(OXA). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of $450\text{nm} \pm 10\text{nm}$. The concentration of Orexin A(OXA) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for OXA elisa kit

Neuro science; Gastroenterology; Hormone metabolism

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
