

Human Bax (Bcl2 Associated X Protein) ELISA Kit | Bax elisa kit

Human Bax (Bcl2 Associated X Protein) ELISA Kit

CATALOG #
AAA270195

REACTIVITY
Human

PRODUCT SYNONYMS

Bax (Bcl2 Associated X Protein); Human Bax (Bcl2 Associated X Protein) ELISA Kit; BCL2L4; Bax Zeta; Apoptosis regulator BAX; Bcl-2-like protein 4; Bax elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	serum, plasma, tissue homogenates, cell lysates and other biological fluids
Assay Type	Sandwich
Detection Range	0.79-50 ng/mL
Sensitivity	0.3 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for Bax elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Bcl2 Associated X Protein(Bax). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Bcl2 Associated X Protein(Bax). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Bcl2 Associated X Protein(Bax), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Bcl2 Associated X Protein(Bax) in the samples is then determined by comparing the OD of the samples to the standard curve.
