

Rat INHbA (Inhibin Beta A) ELISA Kit | INHbA elisa kit

Rat INHbA (Inhibin Beta A) ELISA Kit

CATALOG #
AAA271067

REACTIVITY
Rat

PRODUCT SYNONYMS

INHbA (Inhibin Beta A); Rat INHbA (Inhibin Beta A) ELISA Kit; INH-BA; INHB-A; EDF; FRP; Activin A; Activin AB Alpha Polypeptide; Activin beta-A chain; Erythroid differentiation protein; INHbA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, plasma and other biological fluids.
Assay Type	Sandwich
Detection Range	15.63-1000 pg/mL
Sensitivity	4.6 pg/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for INHbA elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Inhibin Beta A (INHbA). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Inhibin Beta A (INHbA). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Inhibin Beta A (INHbA), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Inhibin Beta A (INHbA) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for INHbA elisa kit

Tumor immunity; Endocrinology; Reproductive science; Hormone metabolism

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
