

Human ACTN2 (Actinin Alpha 2) ELISA Kit | ACTN2 elisa kit

Human ACTN2 (Actinin Alpha 2) ELISA Kit

CATALOG #
AAA271078

REACTIVITY
Human

PRODUCT SYNONYMS

ACTN2 (Actinin Alpha 2); Human ACTN2 (Actinin Alpha 2) ELISA Kit; Alpha-actinin skeletal muscle isoform 2; F-actin cross-linking protein; ACTN2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Tissue homogenates and other biological fluids.
Assay Type	Sandwich
Detection Range	0.32-20 ng/mL
Sensitivity	0.122 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for ACTN2 elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Actinin Alpha 2(ACTN2). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Actinin Alpha 2(ACTN2). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Actinin Alpha 2(ACTN2), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Actinin Alpha 2(ACTN2) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for ACTN2 elisa kit

Developmental science

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
