

Mouse TGFb3 (Transforming Growth Factor Beta 3) ELISA Kit | TGFb3 elisa kit

Mouse TGFb3 (Transforming Growth Factor Beta 3) ELISA Kit

CATALOG #
AAA271116

REACTIVITY
Mouse

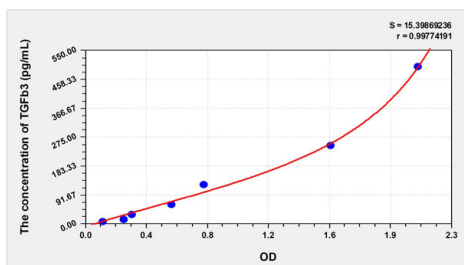

PRODUCT SYNONYMS

TGFb3 (Transforming Growth Factor Beta 3); Mouse TGFb3 (Transforming Growth Factor Beta 3) ELISA Kit; TGF-B3; LAP; Latency-associated peptide; TGFb3 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	serum, plasma, tissue homogenates, cell culture supernates and other biological fluids
Assay Type	Sandwich
Detection Range	7.82-500 pg/mL
Sensitivity	2.9 pg/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for TGFb3 elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Transforming Growth Factor Beta 3(TGFb3). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Transforming Growth Factor Beta 3(TGFb3). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Transforming Growth Factor Beta 3(TGFb3), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Transforming Growth Factor Beta 3(TGFb3) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for TGFb3 elisa kit

Cytokine; Tumor immunity; Infection immunity

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
