

Human CD34 (Cluster Of Differentiation 34) ELISA Kit | CD34 elisa kit

Human CD34 (Cluster Of Differentiation 34) ELISA Kit

CATALOG #
AAA271124

REACTIVITY
Human

PRODUCT SYNONYMS

CD34 (Cluster Of Differentiation 34); Human CD34 (Cluster Of Differentiation 34) ELISA Kit; Hematopoietic progenitor cell antigen CD34; CD34 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Assay Type	Sandwich
Detection Range	0.32-20 ng/mL
Sensitivity	0.119 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for CD34 elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cluster Of Differentiation 34(CD34). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cluster Of Differentiation 34(CD34). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cluster Of Differentiation 34(CD34), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Cluster Of Differentiation 34(CD34) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for CD34 elisa kit

CD & Adhesion molecule; Developmental science; Genetic science

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
