

Mouse TARC (Thymus Activation Regulated Chemokine) ELISA Kit | TARC elisa kit

Mouse TARC (Thymus Activation Regulated Chemokine) ELISA Kit

CATALOG #
AAA271221

REACTIVITY
Mouse

PRODUCT SYNONYMS

TARC (Thymus Activation Regulated Chemokine); Mouse TARC (Thymus Activation Regulated Chemokine) ELISA Kit; CCL17; ABCD-2; SCYA17; TARC; Small Inducible Cytokine Subfamily A(Cys-Cys)Member 17; Small-inducible cytokine A17; TARC elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma and other biological fluids.
Assay Type	Sandwich
Detection Range	31.25-2000 pg/mL
Sensitivity	11.3 pg/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for TARC elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Thymus Activation Regulated Chemokine(TARC). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Thymus Activation Regulated Chemokine(TARC). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Thymus Activation Regulated Chemokine(TARC), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Thymus Activation Regulated Chemokine(TARC) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for TARC elisa kit

Cytokine; Tumor immunity; Infection immunity

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
