

Mouse NPHN (Nephrin) ELISA Kit | NPHN elisa kit

Mouse NPHN (Nephrin) ELISA Kit

CATALOG #
AAA271293

REACTIVITY
Mouse

PRODUCT SYNONYMS

NPHN (Nephrin); Mouse NPHN (Nephrin) ELISA Kit; NPHS1; CNF; Nephrosis 1; Congenital Finnish Type; Renal glomerulus-specific cell adhesion receptor; NPHN elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	urine, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Assay Type	Sandwich
Detection Range	0.32-20 ng/mL
Sensitivity	0.113 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for NPHN elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Nephrin(NPHN). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Nephrin(NPHN). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Nephrin(NPHN), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Nephrin(NPHN) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for NPHN elisa kit
