

Cattle RETN (Resistin) ELISA Kit | RETN elisa kit

Cattle RETN (Resistin) ELISA Kit

CATALOG #
AAA271343

REACTIVITY
Cattle

PRODUCT SYNONYMS

RETN (Resistin); Cattle RETN (Resistin) ELISA Kit; ADSF; FIZZ3; RETN1; RSTN; XCP1; Adipose tissue-specific secretory factor; C/EBP-epsilon-regulated myeloid-specific secreted cysteine-rich protein; Cysteine-rich secreted FIZZ3; RETN elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Cattle
Samples	serum, plasma and other biological fluids
Assay Type	Sandwich
Detection Range	78.13-5000 pg/mL
Sensitivity	31 pg/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for RETN elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Resistin(RETN). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Resistin(RETN). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Resistin(RETN), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Resistin(RETN) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for RETN elisa kit

Metabolic pathway; Endocrinology; Cardiovascular biology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
