

## Human ACAT2 (Acetyl Coenzyme A Acetyltransferase 2) ELISA Kit | ACAT2 elisa kit

Human ACAT2 (Acetyl Coenzyme A Acetyltransferase 2) ELISA Kit

CATALOG #  
AAA272075

REACTIVITY  
Human

### PRODUCT SYNONYMS

ACAT2 (Acetyl Coenzyme A Acetyltransferase 2); Human ACAT2 (Acetyl Coenzyme A Acetyltransferase 2) ELISA Kit; ACTL; Acetoacetyl Coenzyme A Thiolase; Acetyl-CoA transferase-like protein; Cytosolic acetoacetyl-CoA thiolase; ACAT2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                   |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of Human ACAT2. No significant cross-reactivity or interference between Human ACAT2 and analogues was observed. |
| Assay Type              | Sandwich                                                                                                                                                                                |
| Detection Range         | 78.13-5000 pg/mL                                                                                                                                                                        |
| Sensitivity             | 31.5 pg/mL                                                                                                                                                                              |
| Intra-assay Precision   | Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.                  |
| Inter-assay Precision   | Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.                   |
| Preparation and Storage | Store at 2-8 degree C. Stable for 6 months from date of receipt.                                                                                                                        |

### ADDITIONAL INFORMATION

#### Related Product Information for ACAT2 elisa kit

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Acetyl Coenzyme A Acetyltransferase 2(ACAT2). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Acetyl Coenzyme A Acetyltransferase 2(ACAT2). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Acetyl Coenzyme A Acetyltransferase 2(ACAT2), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Acetyl Coenzyme A Acetyltransferase 2(ACAT2) in the samples is then determined by comparing the OD of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
