

Human CTBS (Di-N-Acetyl Chitobiase) ELISA Kit | CTBS elisa kit

Human CTBS (Di-N-Acetyl Chitobiase) ELISA Kit

CATALOG #
AAA272463

REACTIVITY
Human

PRODUCT SYNONYMS

CTBS (Di-N-Acetyl Chitobiase); Human CTBS (Di-N-Acetyl Chitobiase) ELISA Kit; CTB; CTBS elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Human CTBS. No significant cross-reactivity or interference between Human CTBS and analogues was observed.
Assay Type	Sandwich
Detection Range	0.16-10 ng/mL
Sensitivity	0.071 ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for CTBS elisa kit

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Di-N-Acetyl Chitobiase(CTBS). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Di-N-Acetyl Chitobiase(CTBS). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Di-N-Acetyl Chitobiase(CTBS), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Di-N-Acetyl Chitobiase(CTBS) in the samples is then determined by comparing the OD of the samples to the standard curve.
