

## Mouse Slit3 (Slit Homolog 3) ELISA Kit | Slit3 elisa kit

Mouse Slit3 (Slit Homolog 3) ELISA Kit

CATALOG #  
AAA275561

REACTIVITY  
Mouse

### PRODUCT SYNONYMS

Slit3 (Slit Homolog 3); Mouse Slit3 (Slit Homolog 3) ELISA Kit; MEGF5; SLIL2; Multiple epidermal growth factor-like domains protein 5; Slit3 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                                   |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of Mouse Slit3. No significant cross-reactivity or interference between Mouse Slit3 and analogues was observed. |
| Assay Type              | Sandwich                                                                                                                                                                                |
| Detection Range         | 0.16-10 ng/mL                                                                                                                                                                           |
| Sensitivity             | 0.066 ng/mL                                                                                                                                                                             |
| Intra-assay Precision   | Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.                  |
| Inter-assay Precision   | Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.                   |
| Preparation and Storage | Store at 2-8 degree C. Stable for 6 months from date of receipt.                                                                                                                        |

### ADDITIONAL INFORMATION

#### Related Product Information for Slit3 elisa kit

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Slit Homolog 3(Slit3). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Slit Homolog 3(Slit3). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Slit Homolog 3(Slit3), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Slit Homolog 3(Slit3) in the samples is then determined by comparing the OD of the samples to the standard curve.

#### Product Categories/Family for Slit3 elisa kit

Signal transduction

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
