

Human TRH (Thyrotropin Releasing Hormone) ELISA Kit | TRH elisa kit

Cattle TRH (Thyrotropin Releasing Hormone) ELISA Kit

CATALOG #
AAA276729

REACTIVITY
Human

PRODUCT SYNONYMS

TRH (Thyrotropin Releasing Hormone); Cattle TRH (Thyrotropin Releasing Hormone) ELISA Kit; TRF; Thyrotropin-Releasing Factor; Thyroliberin; Protirelin; Pro-tirelin; Prothyroliberin; TSH-releasing factor; TRH elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Cattle TRH. No significant cross-reactivity or interference between Cattle TRH and analogues was observed.
Assay Type	Competitive
Detection Range	7.82-500 pg/mL
Sensitivity	2.63 pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for TRH elisa kit

Principle of the Assay: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Thyrotropin Releasing Hormone(TRH) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Thyrotropin Releasing Hormone(TRH). Next,Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Thyrotropin Releasing Hormone(TRH) in the samples is then determined by comparing the OD of the samples to the standard curve.
