

## Rat CDKN2A (Cyclin Dependent Kinase Inhibitor 2A) ELISA Kit | CDKN2A elisa kit

Rat CDKN2A (Cyclin Dependent Kinase Inhibitor 2A) ELISA Kit

CATALOG #  
**AAA276962**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

CDKN2A (Cyclin Dependent Kinase Inhibitor 2A); Rat CDKN2A (Cyclin Dependent Kinase Inhibitor 2A) ELISA Kit; P16; ARF; CDK4I; CMM2; INK4; INK4a; MLM; MTS1; TP16; P14; P14ARF; P16INK4a; P19; Melanoma P16; Cyclin-dependent kinase 4 inhibitor A; Multiple tumor suppressor 1; CDKN2A elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                                                                                                                                                                       |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity            | Rat                                                                                                                                                                                   |
| Specificity           | This assay has high sensitivity and excellent specificity for detection of Rat CDKN2A. No significant cross-reactivity or interference between Rat CDKN2A and analogues was observed. |
| Assay Type            | Sandwich                                                                                                                                                                              |
| Detection Range       | 0.32-20 ng/mL                                                                                                                                                                         |
| Sensitivity           | 0.108 ng/mL                                                                                                                                                                           |
| Intra-assay Precision | Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.                |
| Inter-assay Precision | Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.                 |

### ADDITIONAL INFORMATION

#### Related Product Information for CDKN2A elisa kit

**Principle of the Assay:** The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cyclin Dependent Kinase Inhibitor 2A(CDKN2A). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cyclin Dependent Kinase Inhibitor 2A(CDKN2A). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cyclin Dependent Kinase Inhibitor 2A(CDKN2A), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Cyclin Dependent Kinase Inhibitor 2A(CDKN2A) in the samples is then determined by comparing the OD of the samples to the standard curve.

#### Product Categories/Family for CDKN2A elisa kit
