

Rabbit TAT (Thrombin/Antithrombin Complex) ELISA Kit | TAT elisa kit

Rabbit TAT (Thrombin/Antithrombin Complex) ELISA Kit

CATALOG #
AAA277197

REACTIVITY
Rabbit

PRODUCT SYNONYMS

TAT (Thrombin/Antithrombin Complex); Rabbit TAT (Thrombin/Antithrombin Complex) ELISA Kit; Thrombin/Antithrombin Complex; TAT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Specificity	This assay has high sensitivity and excellent specificity for detection of Rabbit TAT. No significant cross-reactivity or interference between Rabbit TAT and analogues was observed.
Assay Type	Sandwich
Detection Range	0.32-20 ng/mL
Sensitivity	0.117 ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV%<8% Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (Precision between assays)? CV%<10% Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.

ADDITIONAL INFORMATION

Related Product Information for TAT elisa kit

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Thrombin/Antithrombin Complex(TAT). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Thrombin/Antithrombin Complex(TAT). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Thrombin/Antithrombin Complex(TAT), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Thrombin/Antithrombin Complex(TAT) in the samples is then determined by comparing the OD of the samples to the standard curve.
